EDUCATING A CZAREWITCH.

ANECDOTES FROM AN IMPERIAL NURSERY.

The handsome, sturdy little fellow who will
one day be Czar of All the Russias has not yet
apparently entered upon the more serious side
of his educational career, and at present, writes
a correspondent, he and the other Imperial
children lead as much as possible an outdoor
life, with plenty of wholesome exercise.

It has long been the custom with the Rus-
sian Court, that the early years of education
should be conducted very largely on English
lines, and English is a language which the
Imperial children begin to learn when quite
young.

The precocious sayings and doings of the
little Prince, now nearly five years old, have
been a constant source of merriment to his
elder sisters, who are spoken of as being very
bright, high-spirited children. Miss M. Rager,
who for some time was in charge of the Imper-
ial nursery, once told a delightful anecdote of
the two elder daughters of the Czar, the Grand
Duchesses Olga and Tatiana, at the time when
their education began in earnest.

"They usually lunched with their parents, but
were told that when they were unwell and not
polite to their tutor they would have to lunch
in the nursery."

"For a while things went smoothly, but one
day Olga was naughty, and got a bad mark.
She turned to her mother and said humbly, 'I
am truly sorry I gave you so much trouble.' Then
she shook hands with him and turned to the
door, trying unsuccessfully to prevent her-
self from crying."

The tutor was surprised to see the light-
hearted child so troubled over a bad mark till
he explained the situation to him. He then weakly
offered to give her a better mark, but she only
sobbed out, 'Thank you, monsieur, but really
I have not deserved it. I have only deserved
the bad mark, and I must stay in the nursery-
to-day.' Tatiana came in at this moment,
greatly concerned. When she heard what had
happened she cried, 'Oh, this is terrible! But
tell me what you did, and I'll do the same that
we may be punished together!'

Her little sister, however, did not allow her
to make the sacrifice. "No, Tatiana," she said,
"you must be very good, and let mamma see
she has one obedient daughter."

It would appear that nowadays the educa-
tion of children at the Russian Court is not so
severe as it was in the earlier part of last cen-
tury. The regime under which Alexander II.
was brought up, for instance, was certainly
stringent if simple.

Mr. Bayley Hoggett has summarised the
young Alexander's day's work as follows:

"He and his comrades, Vsevolodski and
Farkul, had to get up at six, and after prayers
and breakfast, began their lessons at seven.
These were continued till noon with an interval
between nine and ten for recreation."

"After a two hours' walk, they had dinner at
two, after which they played or rested until five
when lessons were resumed until seven; then
they were allowed to play or do gymnastics for
an hour. At eight supper was served; the
evening was devoted to a review of the day's
achievements and to posting the diary; at ten
they went to bed."

"On Sundays and holidays the hours devoted
to lessons were taken up partly with improving
reading, partly with some handicraft and
gymnastics."

"Notwithstanding the ability exhibited by
Alexander, it seems that he was wanting in
steady application; he was brilliant, but no
plodder. In order to make him work Captain
Meender hit upon a very ingenious plan. He
started a poor-box, to which the children were
not allowed to contribute unless they had earned
the right to confer benefits on others by
having worked assiduously themselves. And
this plan seems to have been successful."

EX-PRESIDENTS AFTER
RETIREMENT.

President Roosevelt retired from his exalted
office while a comparatively young man, and
doubtless looks forward to a longer lease of
life than has fallen to the lot of a majority of
retiring presidents. John Adams, the second
president, lived over a quarter of a century
after laying down the cares of office, but the
average period of life of the presidents after
retirement is only twelve years and ten months.
The list follows:—

George Washington lived two years and nine
months after retirement.

John Adams lived twenty-five years and
three months.

Thomas Jefferson lived seventeen years and
three months.

James Madison lived nineteen years and
three months.

James Monroe lived six years and four
months.

John Quincy Adams lived nineteen years and
served in the House of Representatives.

Andrew Jackson lived eight years and three
months.

Martin Van Buren lived twenty-one years
and four months.

William Henry Harrison died precisely one
month after his inauguration, April 4, 1841.

John Tyler lived seventeen years after his
retirement.

James K. Polk lived three months.

Zachary Taylor died in office, sixteen months
after his inauguration.

Millard Fillmore lived twenty-one years
after his retirement.

Franklin Pierce lived two years and seven
months.

James Buchanan lived six years and eleven
months.

Abraham Lincoln died in office.

Andrew Johnson lived six years and four
months after retirement, and served a portion
of a term in the United States Senate.

U. S. Grant lived eight years and four months
after retirement.

Rutherford B. Hayes lived eleven years and
eleven months.

James A. Garfield died four months after his
inauguration.

Chester A. Arthur survived one year and
eight months after retirement.

Grover Cleveland lived ten years and seven
months.

Benjamin Harrison lived eight years.

William McKinley died in office.

Only two of Mr. Roosevelt's predecessors
returned to public life, John Quincy Adams
dying while a member of the House of Repre-
sentatives and Andrew Johnson passing away
while United States Senator.—*Salt Lake
Herald.*

SHE KNEW THEY WERE GOOD
FOR ACHING BACKS.

A MALAY STATES MINING-ENGINEER, SUFFER-
ING WITH CRUEL BACK PAINS, MALARIA,
AND OTHER AFFLICTIONS, TAKES HIS
WIFE'S ADVICE, AND FINDS
COMPLETE CURE IN
Dr. Williams' Pink Pills.

"Most women know from painful experience
what back-pain is. Many women too—also
from experience—know that for aching backs
no remedy exists equal to Dr. Williams' Pink
Pills for Pale People. That is why the wife of
Mr. Robert Darwood, a mining engineer at
Kampar, Federated Malay States, persuaded
her husband into testing the value of Dr. Wil-
liams' Pink Pills when he was at his wife's end
for a cure for his tortured back some months
ago, and now he gratefully records how not
only did these Pills completely vanquish his
malady, but at the same time drove Malaria
and other troubles from his system as well.
When called upon at Kampar recently Mr.
Darwood was busily at work at the mine, but
he willingly gave up a few moments of his time
to relate the story of his cure."

"So bad was the condition of my health some
time ago that I was on the point of resigning
my position here and going back to sea again,"
said he. "I was full of Malaria, and suffered
much with
SWELLING IN MY LEGS
caused by dampness in the mines; My
digestive organs were out of order, I
lost all desire for food, and suffered
with terrible pains in the back. My hands

and feet were always cold and all the aches
and pains and misery I suffered made me feel
thoroughly
DEPRESSED AND WORN-OUT.
"I tried medicines of all sorts," continued
Mr. Darwood, "and also had qualified medi-
cal advice, but all that I took failed to set me
right. Then my wife suggested my trying Dr.
Williams' Pink Pills for Pale People, and at
last succeeded in worrying me into doing so,
with the result that these Pills have completely
cured me, and I am now feeling as fit as any-
one could wish to be. You have my permission
to publish this statement."

AND THOUSANDS SAY SO.
Dr. Williams' Pink Pills for Pale People are
valuable for both sexes, and for children as
well as adults, because they are a blood-making,
nerve and muscular tonic. They have cured
all diseases arising from weak nerves and
"overstrain," or from residence in tropical
climates, such as Liver Ailments, Malaria,
the After-Effects of Intermittent, and other
Fever, Paralysis, Beri-Beri, Sciatica, Early
Decay, Spinal Disease, Nervous Headache,
and Heart Disease; also disorders arising
from weakness and impoverished blood, such
as Anemia, Rheumatism, Indigestion, Short-
ness of Breath, Hysteria, Female Disorders,
and Pale and Sallow Complexion. They are
obtainable at most shops where medicines are
sold, also direct from the Dr. Williams' Medi-
cine Co., 8 B Kiang Road, Shanghai,
who send 6 bottles for \$9. mes. or a bottle
for \$1.50 mex post free to any address.

CHEMISTS

BY APPOINTMENT TO HIS EXCELLENCY THE
GOVERNOR AND HOUSEHOLD.Watson's
HYGIENOL,
AND
BUBONIC PLAGUE!

It has been proved by repeated experiments that "WATSON'S HYGIENOL" is the most potent agent for the destruction of fleas, especially rat fleas.

It has now been proved that Plague is conveyed to human beings by means of fleas from rats which have died of this disease.

All risk of infection can be avoided by washing the floors, etc., or sprinkling where the fleas are likely to be with a dilute solution of "WATSON'S HYGIENOL." A teaspoonful to a pint of water, or a teacupful to three gallons, makes a solution of the strength required for this purpose.

PHILIPPINE SUGAR.

TO BE ADMITTED INTO AMERICA FREE
OF ALL DUTY.The action of the Senate Finance Committee has made it morally certain that Philippine sugar will be admitted to this country free of duty to an amount not exceeding 300,000 tons a year, which is more than the islands can supply at present; reports from the *San Francisco Chronicle*. That is a very liberal present, for the national revenues are in a bad way and this admission, if full advantage of it is taken, will require the American people to tax themselves on something else to the amount of say \$5,000,000 annually to make good the loss of duty, or probably 20 per cent. less than that if it is Cuban sugar that is displaced. As a

matter of fact, it will not displace any sugar now supplied, for our increasing population will consume all the sugar which we can produce, as well as all that we import, and so this free sugar importation of 300,000 tons will not lower the price of sugar in this country. And, whether it does or not, and whether we like to make good the revenue deficit or not, it is the legitimate consequence of our annexation of the Philippines. If we did not desire to admit their products free, we should not have annexed the islands. Nevertheless, the Philippines must understand that they cannot get the full benefit of our markets without ultimately paying their share of the national expenses and giving us the full freedom of their markets.

But a market for 300,000 tons of sugar in our protected country is a thing well worth having. "Fair refining" sugar is worth in New York to-day about 31 cents a pound and centrifugals about 4 cents. At present Philippine sugar is mostly rather low grade, but access to our markets will justify market prices. Assuming that it is the average value of Philippine sugar is 17½ per long ton, delivered in our ports, we shall give the Philippines a free market for produce to the amount of \$12,500,000 on sugar alone, to say nothing of tobacco and other articles now dutiable but to be admitted free. In sugar alone 300,000 tons is sixty 5,000-ton shiploads and is the basis for a very large commerce. The ships returning—shall they be American ships?—must have loads to carry, and the ports which can supply the return loads will get the trade and the refining of the sugar. And now San Francisco industries must bestir themselves to see what they can provide to ship back in the sugar ships. We can refine the sugar. Can we supply the loads back in competition with other sugar-refining ports?

LOCAL AND GENERAL.

By the P. and O. str. *China*, which left London on April 2, there is a consignment to Shanghai of Bar Silver, £10,000.

PRINCE Su has recommended that Provincial Treasurer Shang Chi-hing at Fukien be appointed Imperial Commissioner of the Foo-chow arsenal and dockyard. This post has always been held by the Tatar General.

A FORTUNE of nearly £3,000,000 has been left by the late Sir Frederick Wills, the head of the British tobacco firm, the net value of the personal estate, exclusive of a reversion, being £2,565,599. The amount is to be paid in death duties thus amount to over £3,000. A conditional legacy of £5,000 to Bristol University is the only public bequest.

THE Revd. Lord and Lady William Gascoigne Cecil, having completed their present tour in North China, in connection with the proposed foundation of a Training University, have left Tientsin for home, via the Trans-Siberian Railway. On his arrival home, Lord William will make his report to those interested, and then something will be decided in the matter as soon as possible.

By kind permission of the Colonel and officers of the 105th M.L.I.R., the band will play the following programme to-night, at the Kowloon Hotel, commencing at 8 p.m. sharp:—

March....."San Salvatore".....Baker.
Overture....."Huangling".....K. Bala.
Valse....."A Waltz Dream".....Strauss.
Two Steps....."Mandy on the March".....Philips.
Selection....."Havana".....Strauss.
Dance....."Euphrates".....Kerker.
March....."Hoch Hobbling".....Kral.
Valse....."Convent Girl".....Philips.
Selection....."H.M.S. Pinafore".....Sullivan.
Serenade....."La Paloma".....Hartmann.
Two Steps....."Cherry".....Allert.
Galop....."Flying Feet".....Devorrell.
God Save the King.

H.E. Hsi Liang, new Viceroy of Manchuria, has submitted a confidential memorial to the Throne in which he points out that the present threatening situation in Manchuria is due to China's lack of strength and he would, therefore, advocate the organization of banks, opening of trade ports, industrial development and reclamation of land. By means of these measures it is hoped that Chinese sovereignty may be preserved. When Viceroy Hsi departed from Peking, the Prince Regent cautioned him to be energetic in his administration and said that ex-Viceroy Hsi Shih-chang had ruled the provinces for three years without attaining much success.

WITH their wonted acute perception of the possibilities of things the Chinese have taken advantage of the anti-mosquito campaign in the French Concession to enrich themselves. One of the methods adopted to destroy the embryo nuisances is to pour kerosene on the waters of the various creeks and pools, and as a consequence most of them now carry a surface coating of oil. The Chinese who do not view the work in the same light as the foreigner have recently commenced skimming the creeks of the floating oil and using it for their own purposes. It seems more likely that fuel will become cheap if the campaign continues to afford the natives these opportunities remarks the *Shanghai Mercury*.

THE following telegraphic information dated 17th May, 1909, has been received from the Sumatra Director and Manager of the Maatschappij tot Mijde-Bosch-en Landbouwexploitatie in Langkat, Ld.:—

most conspicuous contribution to the decoration of the Beaconsfield Statue on Primrose Day was by Mr. E. E. Balliol, who is the Conservative candidate for Wallworth. This consisted of a large shield, with the Union Jack and the national colours. At the base was a bank of primroses, throwing into relief the words "Peace with honour" in violets.

It is reported that H.E. Chang Yen-mon, who was degraded in connection with the Kaiping Mining Co. and has not since held office, will be appointed Councillor of the Yuchuang. Viceroy Chia Ku'e-ung at Wuchang, and Viceroy Sheng-jin of Kansu may both be removed. The former is charged with negligence in not enforcing opium prohibition and the latter for his apathy towards constitutional reforms.

UNDER date, Shanghai, 20th inst., Messrs. Wheelock & Co. write:—Our homeward freight market still continues brisk and now that the Hankow tea-season has opened vessels on the various berths can expect good support for the next few months at any rate. Coastwise—Here things have "eased-up" a little since last writing and rates are not quite so firm as they were; there are indications that the demand from the Yangtze River ports is slackening off somewhat as was only to be expected at the approach of the hot weather and coal-freights from Japan are also slightly easier; however, there is not much loose tonnage seeking employment and if the Southern markets remain firm we do not anticipate any very appreciable drop in rates.

In concluding a review of Mr. C. A. Montolio de Jesus' latest work, "Historic Shanghai," the local *Times* remarks:—Mr. de Jesus writes with a clear literary style, and one would scarcely suspect that he was writing in a language which is not native to him. Considering the early influence of the Portuguese in the Far East, and the large number of Portuguese residents in the Settlements, it is a matter of congratulation to his nationals that the most important work which has yet been produced concerning Shanghai should be the work of a Portuguese. Mr. de Jesus has given several years of labour to the production of this valuable book, and he deserves well at the hands of the community. The price is rather expensive, for a volume of its size, but perhaps this will be remedied by such a reduction of price as will make it possible for a large number of volumes to find their way into the homes of Shanghai residents.

CANTON DAY BY DAY.

SCHEME TO PREVENT FLOODS.
[From Our Own Correspondent.]Canton, 21st May.
Owing to the frequent occurrence of floods in the riverine districts along the West, East and North Rivers, the local gentry are now considering a scheme, whereby it is proposed to cut a canal joining the China Sea with the affected areas, thus causing the water to run into the ocean and effectually prevent it from overflowing the embankments. The idea is no doubt a commendable one, but the scheme presents great difficulties. The local gentry have now issued circulars to invite public suggestions on the advisability of the proposed undertaking.H.E. WEN TSUNG YAO, the Imperial Assistant Resident Minister at Tibet, left here the other day for Hongkong, where they proceeded on the 18th inst. by the *Namang* for Calcutta, en route to Lhasa to join H.E. Wenthere.PROPOSED INDUSTRIAL ORGAN.
The Taoist for the Development of Native Industries has proposed to establish a daily paper in Kwong Ngar Lane, under the style of the *Kwongying Industry Daily News*, in which articles on agriculture, mining, and industrial questions will appear with a view to impress upon the people the importance of developing the economic resources of the country.A DARING RAID.
Yesterday, on information received, a native detective, accompanied by half-a-dozen police, raided a house in Yai Yuen Lane in the new city, where they effected the arrest of two kidnapers, and found a number of boys and girls, ten in all. The culprits have been handed to the Taoist of Constabulary. It is reported that all the little victims had been kidnapped and brought down to Canton from Kwangsi.MEETINGS TANTAR GENERAL.
On the arrival of the newly-appointed Junior Lieutenant Tantar General Chua Lee at about noon to-day at the Government Tien Fie wharf, all the officials of this city assembled at the Official Reception Hall to meet him as well as to inquire after the health of H. I. M. the Emperor in accordance with traditional custom.RECEPTION OF BRITISH CONSUL.
H.E. Viceroy Chang Jen Chua will receive the British Consul at Canton on the 24th inst. at 11 a.m.ROBBERIES AGAIN.
Recently, robbers in the districts along the Taot River have been very active in disturbing the public peace. Cases of robbery, piracy and kidnapping have been reported at Canton, as a consequence of which H.E. Viceroy Chang yesterday gave instructions to the Kwangchow Brigadier-General Woo to proceed with a detachment of troops to the locality for the apprehension of the outlaws. Yesterday afternoon, in accordance with his instructions, the Brigadier-General left here with troops on board three gunboats for the scene of the outlaws' depredations.H.E. KO YU HIM.
The Special Commissioner, H.E. Ko Yu Him, appointed to conduct negotiations with the Portuguese Government on the question of the delimitation of Macao, has now received an official seal from Peking confirming his Commission. The seal bears the following characters:—"Imperial Commissioner in charge of the Macao Delimitation boundary."Hongkong University
Scheme.

A PRINCELY DONATION.

MESSRS. JOHN SWIRE AND SONS' MAGNIFICENT
CONTRIBUTION OF £40,000.

We have received the following letter for publication. Messrs. John Swire & Sons' princely donation of nearly half a million dollars towards the Endowment Fund for the University brings the Governor's much-cherished scheme within measurable distance of accomplishment:—

TO THE EDITOR OF THE "HONGKONG TELEGRAPH."
Sir,—By the courtesy of Mr. Law I am able to inform you that Messrs. John Swire & Sons have promised £30,000 to the Endowment Fund for the University; to be invested by them in Mortgage debentures which will be handed over to the Trustees of the Fund. The Tai-ko-Sugar Refining Company, Ltd., have promised £5,000, and the Ocean Steamship Co., Ltd., a similar sum, making £40,000 in all or at the rate of exchange of the day \$450,440. These subscriptions are subject to the whole Endowment Fund being subscribed, and will no doubt stimulate emulation. The patriotic generosity of this great firm is appropriately announced on Empire Day, and is a splendid reply to the words I used in my address this morning at Kowloon School.Yours faithfully,
F. D. LUGARD,
Governor.

Hongkong, 24th May, 1909.

POLICEMAN'S NARROW ESCAPE.

DRAWS DOWN IN SUNKEN MANOILA.

A Chinese policeman, who is stationed at headquarters, narrowly escaped being seriously injured yesterday. Numerous reports have been made to the police of late of the damaged condition of some of the roads in the Colony, owing to the recent rain. Some time yesterday afternoon a *tukong* while on duty in Bridge Street chanced to step on a manhole. Imagine the surprise he received, when all of a sudden the manhole sunk under him. The officer was carried under the street for a distance of about six feet, but, fortunately, he was not hurt in any way. Throughout the day the aperture, in the street was covered with a condensed milk case in order to avoid any further accidents.

THE OPIUM TRADE.

The annual meeting of the Society for the Suppression of the Opium Trade was held in Canton Hall, London, on April 30, Sir Matthew Dodsworth presiding.

The executive committee in their annual report, which was presented by the Rev. E. J. Dukes, described the results of the Commission at Shanghai as very gratifying. As to the defence of the trade by the Commission which inquired into the question in the Straits Settlements and the Malay States, it would have been difficult to find in the European population of these Crown Colonies man sufficiently disinterested to condemn a system by which the burden of taxation that would otherwise fall on themselves was borne by the Chinese labourers forming the main basis of the prosperity of the colony. The Commission had, however, recommended some important reforms in the existing system. Striking progress had been made in China towards the suppression of the production and use of opium, and it was intolerable that our professing Christian nation should wait for China to show it the example of relinquishing a morally indefensible trade. In our Eastern dependencies stringent measures should be adopted similar to those of Canada, Australia and New Zealand to protect the native race from the curse of opium.

The Chairman urged that our country should no longer maintain the treaty rights by which our opium was taken into China, the very existence of these rights being a moral wrong.

The Rev. S. Pollard moved a resolution, urging his Majesty's Government to accelerate the stoppage of the production of opium and its export from India. This was adopted. The next resolution, moved by the Rev. W. E. Horley, and seconded by Mr. John Ferguson, of Ceylon, appealed to the Government firmly to press forward its opium policy.

The Chinese Minister occupied a seat on the platform and moved the closing vote of thanks to the chairman.

JAPAN.

IMPERIAL AUDIENCES.

Tokio, 17th May.
Sir Claude Macdonald, British Ambassador at Tokio, will be received by the Emperor of Japan at a farewell audience, when he will be entertained at luncheon by his Majesty, on May 21. Mr. Horace Rumbolt, the new Counselor of Embassy, will be received in audience with Sir Claude Macdonald.

Rear-Admiral Harbo of the American naval squadron was received in Imperial audience to-day.—N. C. D. News.

WU TING-FANG.

DENIES REPORTED RECALL.

New York, May 17.
His Excellency Wu Ting-fang, Chinese Ambassador at Washington, has been interviewed with regard to the Shanghai report that he is to be recalled, and has declared that he has no information on that point whatever.—*Shanghai Times*.LIEUTENANT ARTHUR F. L. ATTWOOD has been appointed to the *Tamar*, receiving ship at Hongkong, for the duties of gunnery officer. Lieutenant Attwood entered the service as "supplementary" lieutenant in October, 1895, and he is a qualified gunnery officer of some years' standing and recently was doing duty with the cruiser *Minerva*.

RIVER STEAMER THREATENED.

AN ALARMING REPORT.

A report of a somewhat alarming character, with circumstantial details, reaches us of a threat that had been made in regard to a river steamer trading between Hongkong and Canton. In the absence of any confirmation of the rumour, owing to to-day being a public holiday and the difficulty of securing authentication of the report, we refrain to mention names. It is stated that a letter has been delivered to a well-known local skipper to the effect that it is planned to destroy his vessel by incendiarism. The letter has been transmitted to the Police authorities who are said to be conducting secret investigations in order to trace its authorship. In order to disguise the origin of the threatening communication it is said that it is signed by "A Pirate Chief of Canton."

Curious to relate, when a number of Chinese women were about to embark on board the same steamer for Canton last night, a number of native looters, who are in the habit of congregating near the wharves, frightened the would-be passengers by that vessel with the intimidation that they would be done to death if they ventured to travel by that boat. Needless to state, the women became so terrified that they at once abandoned all idea of proceeding by the vessel of their first choice, and made for a neighbouring wharf where they took passage by another vessel of a rival company. There is just the possibility that these looters might have been hired intimidators, in which case if suspicion can be established for a fact, they should be made to suffer for what is tantamount to the institution of a practical boycott against a particular steamer.

SHOOTING FATALITY.

TWO CHINAMEN SHOT IN SINGAPORE.

SOLDIERS ARRESTED AND CHARGED.

Shortly before midnight on Saturday, reports the *Straits Times* of 17th inst., a Chinaman in the coolie quarters at Pulo Brani received a bullet in the right lung which caused his death about two hours later, and another Chinaman was shot through the left knee by the same bullet, alleged to have been fired by Private Miller, of the Middlesex Regiment, who claims that it was pure accident.

The stories of the Chinese and of the soldiers are, naturally, somewhat different. Privates Miller and Dunkley state that they were on the Royal Engineers' jetty, in front of the coolie quarters, fishing on Saturday night. Not having any luck there, they decided to go to another pier, shortly before eleven o'clock, and in doing so passed through the coolie quarters. The Chinese took umbrage at this, and ten or a dozen men pursued them with sticks in a menacing manner. They returned to their quarters, when Dunkley says he went to sleep, being awakened not long afterwards by Sergeants Pearce and Cobley, who entered and asked Miller if he had any more ammunition. He replied Miller that he had none more round, and both of them were then taken to the guard room.

Miller states that after he and Dunkley returned to their quarters and Dunkley turned in, he took his rifle and one round of ammunition which he had found, went outside and fired it over the coolie quarters to frighten the noisy coolies.

The story of the Chinese is that the soldiers entered their quarters and interfered with their women-folk. The two men who were shot were both lying down and probably asleep. The ball passed through four rooms before it struck the first man in the knee, the wound indicating that he was lying on his back with his knee up. The ball then passed through the next partition in a downward course and passed through the back of Hoh Hoo, the deceased terminating its flight in his right lung.

Privates Miller and Dunkley are employed at the Pulo Brani military telephone exchange, and are both very young. They were brought before the third magistrate, this morning, on a charge of culpable homicide not amounting to murder, and were remanded by a week. Insp. Tredgold, of the Marine Station, took them over from the military authorities last night, at 9 o'clock, bringing over to the General Hospital also the injured man and the body of the deceased. An inquest is being held there this afternoon by Mr. A. Gentle, the coroner.

VOLCANIC ACTIVITY.

CURIOUS PHENOMENON IN THE HOKKAIDO.

Tatsumiyama, a volcano in the Hokkaido, which has been active lately, is presenting a curious aspect, according to a telegram from Sapporo. A heap of lava, about 500 feet high, has made its appearance round the crater. At first the erupted matter was in a smooth hemispherical form, but its top gradually subsided and it now presents a serrated appearance like the teeth of a saw, while smoke is issuing from holes in the side. The heap of lava first appeared on April 23rd last and increased in bulk considerably on the following day. It can be seen from Sapporo. While the volcano was in eruption, the lava streaming down was so hot that pipes could be lighted from it. The largest piece of lava to fall down measures 30 feet in circumference, and pieces once to three feet in circumference have been falling every day. An American professor, Mr. Sato, an engineer in the Department of Agriculture and Commerce, Mr. Shibasaki, an assistant professor in the College of Agriculture in the Tokyo Imperial University, and Mr. O, an engineer in the Sapporo Mining Office, have proceeded to the summit of the volcano to inspect the phenomenon. More than fifty sightseers are now ascending the volcano daily.

Mount Asama, the well-known volcano near Karisawa, is reported by wire to have given forth violent rumbling noises at 5 a.m. on the 18th instant. The roar was the most violent that has been heard from the volcano since June last year.

WARNING TO SHIPMASTERS.

FLOATING MINE DISCOVERED WITHIN
HONGKONG WATERS.

An extraordinary story was told by the master of one of the Macao steamers regarding a floating mine, which, if existent, is presumably a remnant of the Russo-Japanese War.

According to his report, which has been submitted to the shipping authorities, it appears that while on the run to Hongkong yesterday he sighted a floating mine just between Dumbell Island and Green Island, about a mile and a half from the shore.

It was impossible for him to take any steps to remove the obstruction, but it is to be hoped that such a menace to shipping generally will be removed as soon as possible.

If this kind of thing becomes common on the high seas it is well that the new arrangement arrived at by the Powers, whereby floating mines shall have a restricted area, should come into force.

SEARCH INSTITUTED.

We understand that, immediately upon receipt of the report, the Harbour Master caused a search of the waters around and near Dumbell Island to be immediately instituted. To this end the Government tender *Stanley* was despatched to scour the waters near the vicinity where the danger was reported to exist by the captain of the Macao steamer. Kai-i-chow Island was first visited and a close scrutiny of the waters made; then the *Stanley* steamed down as far as the Ling-ling where the fleet of fishing junks was closely questioned as to whether they had observed any floating mine or buoy adrift in the course of their day's cruise. The masters of the entire fleet had seen nothing which corresponded to the appearance of a mine or buoy. On the return journey the *Stanley* stopped and spoke the *Sui Tai*, another Macao steamer, whose master could not confirm the report of the existence of any floating danger to navigation all his route that day.

It may be mentioned that the waters a bit southwards of Kai-i-chow Island had been reserved as a sort of dumping "ground" for refuse from Hongkong, where the conservancy boats proceed to empty their daily freight. A buoy was placed near the "grounds" some eighteen fathoms ago with the word, "Ashes" painted on it in legible letters. It is quite possible that an old tub or broken cask has been mistaken for a derelict mine.

SERIOUS ACCIDENT AT THE
HONGKONG HOTEL.FITTER FALLS FOURTEEN FEET WHILE
ATTENDING TO ICE PLANT.

An accident, which may perhaps have fatal results, took place at an early hour this morning. The victim was the No. 3 fitter, Y. Kau, in the employ of the Hongkong Hotel. The unfortunate man was engaged at 1 a.m. to day adjusting a leather belt on the ice plant, when he lost his balance and fell to the ground, a drop of about fourteen feet. He landed on his head, and became unconscious. Dr. Marjot attended to the injured man temporarily, after which he was taken to the Government Civil Hospital by Detective Sergeant J. Watt, where he now lies in a precarious condition. The fitter was about twenty-nine years of age.

ANOTHER LANGKAT CASE.

The recent phenomenal rise in the price of Langkat shares is, it is reported, responsible for a number of suits which will keep the Courts busy for some time. The *Shanghai Times* understands that Mr. F. L. Marshall, sharebroker, has filed a petition in H. B. M.'s Supreme Court against Mr. F. A. Nazar for refusing to deliver fifty Langkat shares sold to plaintiff for the June Settlement, prior to the recent rise in value. Mr. J. C. E. Douglas will appear for plaintiff and Mr. H. L. Wilkinson for the defence.CHINESE POLL TAX
IN BANGKOK.

AMENDED REGULATIONS.

All concerned will be agreeably pleased to hear that the Bangkok Revenue Office of the Ministry of the Local Government is taking a new highly commendable departure this year with regard to the collection of the Chinese Poll Tax. In former years both the Chinese themselves, as well as those employing Chinese labour, were put to much trouble and inconvenience, but in order to obviate the usual harassing procedure, His Excellency Phra Ratsuda Kosa Koon, Director, Bangkok Revenue Department, courteously informs us that under the Royal Proclamation of R.S. 127 the use of cotton wristlet has been abolished and that in future all Chinese will be liable to payment of a yearly tax of 6 Ticals per head and that the collection of same was commenced on the 1st May R.S. 128 (1909).

A form of assessment was enclosed to all those employing Chinese labour, so that employers may fill it giving the number of male Chinese between the ages of 18 and 60 who may be employed in family or firm in any capacity whatsoever. Employers are requested to return this form duly filled up to the Bangkok Revenue Office, Ministry of the Local Government, while at the same time fixing a date and place, which would be convenient for the collection to be made.

Should the number of assessable persons exceed 50 a reduction of 10% will be granted on the collection. This method, no doubt, will be generally welcomed by all concerned, as it will do away with the disagreeable course of having to go to expense and trouble of taking out search warrants and making arrests. The authorities are, therefore, heartily desiring of all co-operation in the work of this new plan which will make the business simple and easy for all.—*Shan Free Press*.

Telegrams.

"HONGKONG TELEGRAPH" SERVICE.

CANTON-HANKOW RAILWAY.

THE LOAN AGREEMENT.

[By courtesy of the "Sheung Po"]

Peking, 23rd May.

The terms of the loan agreement for the construction of the Canton-Hankow Railway have been submitted to Chang Chih-tung; it is expected that the agreement will soon be concluded.

It is reported that the Grand Council has decided not to raise a loan for the Hankow-Chingtu Railway.

PORTUGAL AND CHINA.

ANOTHER REBUFF FOR THE PORTUGUESE MINISTER.

[By courtesy of the "Sheung Po"]

Peking, 23rd May.

The Portuguese Minister in Peking has demanded the release of Lung Kit, who was arrested in Shanghai and ordered to be sent back to Kowloon to stand his trial for alleged complicity in a revolutionary movement.

The ground upon which the Portuguese Minister urged the release of Lung was that he is a Portuguese subject.

The Waiwupu has strenuously opposed the application.

RAILWAYS.

ASSISTANT SUPERINTENDENT GENERAL WANTED.

[By courtesy of the "Sheung Po"]

Peking, 23rd May.

H.E. Chang Chih-tung has memorialized to the effect that affairs connected with railways are becoming too numerous and asked for the appointment of an assistant Superintendent-General.

He recommends H.E. Tang Shao-yi as a fit person for the post.

HSU SHIH-CHANG.

ARRIVAL IN PEKING.

[By courtesy of the "Sheung Po"]

Peking, 23rd May.

H.E. Hsu Shih-chang, ex-Viceroy of the Three Eastern Provinces, arrived in Peking on 23rd instant, and took over his duties as president of the Ministry of Posts and Communications on the same day.

MACAO DELIMITATION.

H.B. KO SOLE COMMISSIONER.

[By courtesy of the "Sheung Po"]

Peking, 23rd May.

It is proposed by the Grand Council to grant to H.B. Ko Yi-him, special commissioner, plenary powers in connection with the delimitation of the boundaries of Macao.

No assistant commissioner will be appointed, so as to obviate the necessity of a division of responsibility.

HEROISM REWARDED.

NAVAL OFFICER'S GALLANTRY RECOGNIZED.

Flag-Commander D. T. Norris, of the *King Alfred*, has just been awarded the bronze medal for life-saving by the Royal Humane Society. The officer in question rescued a seaman of the flagship from drowning by jumping into the water whilst she was going to knots an hour off Hongkong on Feb. 3 last. The man, a stoker named Williams, slipped off a gangway and would have been inevitably drowned had it not been for the gallantry of Flag-Commander Norris. The medal was also earned by Private J. R. McLevy, Royal Marine Light Infantry, for his plucky rescue of Private Redwood, of the same corps, who slipped from a ladder and fell into Hongkong harbor whilst embarking on the cruiser *Kent* on the same date.

WATKINS, LIMITED.

ANNUAL REPORT.

The report of the general managers to be presented at the tenth ordinary annual meeting of shareholders to be held at the Company's office at noon, on Saturday, 29th May, 1909, reads:—

Gentlemen,—We beg to submit to you our report and statement of the accounts of the company for the year ended the 31st December, 1908.

PROFIT AND LOSS ACCOUNT.

The result for the year on the trading shows a profit of \$10,216.38, to which must be added the balance of 1907 account \$754.58 and \$518 surplus of rents receivable over Crown rent and taxes payable, making a total of \$11,489.54.

Certain interest and depreciation has to be allowed for and instead of declaring a small dividend with the balance it is considered sounder to still further conserve the financial standing of the company.

Your general managers do not wish to curtail the buying capacity of the business for the second half of the year, as would be the case were a dividend now declared, which would have to be paid out of borrowed money.

Your general managers trust that the sacrifices of the last four years will bring their reward in the annual accounts for 1909. It is considered advisable to allocate the balance of \$11,489.54 as follows:

Interest on loans and overdrafts.....\$ 1,404.78
Depreciation—Shop fittings and furniture at 15 per cent.....1,458.75
Building.....2,209.24
Aerated water plant.....2,106.90
Stock.....2,003.00
Exchange account.....691.73
Balance to next year.....617.55

\$11,489.54

AUDITORS.

The accounts have been audited by Messrs. Lowe, Bingham & Matthews.

JAPAN SUGAR SCANDAL.

VIEWS OF ONE OF THE ACCUSED.

Mr. Esaki Reiji, a well-known business-man of Tokyo, who is one of the persons committed by the Preliminary Court for public trial as the result of the investigation into the sugar company scandal case, is now at home on bail. To a representative of the *Asahi* on the 10th instant, says the *Japan Chronicle*, Mr. Esaki gave the following particulars of his action in connection with the scandal. Mr. Esaki became a large shareholder of the company in August, 1907. At that time, the action of the directors of the company was very suspicious. For instance, the bills paid by them to the Okadaya alone, a tea-house of Hamamachi, Tokyo, amounted to between ¥2,000 and ¥3,000 each month. It would appear that the directors were leading a very dissolute life, and keeping concubines. The large shareholders were much concerned as to the future of the company and holders of not less than 300 shares agreed among themselves to combine together and select auditors from among themselves or their friends only and to guard their interests against the directors. They accordingly held a meeting, in the evening of October 27th, 1907, at the Isehai, a tea-house at Ryogoku. The meeting, which was attended by 34 shareholders, first considered the question relating to the sugar monopoly, and then adopted the following resolutions in addition to one to the effect that the company should be compelled to pay a dividend at the rate of 20 per cent. for the second half of 1907:—

(1) That the directors should consult with the various authorities concerned as required by circumstances for the adoption of a Sugar Monopoly by the Government.

(2) That in the event of the Sugar Monopoly Bill being passed by the two Houses of the Diet, the shareholders of the company should subscribe ¥5 on each share as remuneration for the services of the directors.

(3) That the auditors of the company should be elected from among shareholders holding 300 or more shares each.

The meeting then appointed Messrs. Esaki, Imada, Hosono, Takata, Ushioda, Onabara, and Arai as a committee to put the resolutions into practice. Messrs. Imada and Esaki were charged to conduct the negotiations with the board of directors of the company and the political parties. At this time Messrs. Isomura and Akiyama, managing directors of the company, were being shadowed by police detectives, which rendered it inconvenient for them to continue their movements to influence the political parties or members of the Diet. In consequence Mr. Ito Moshichi, a director of the company in Osaka, was summoned to Tokyo, and, acting under his direction, Mr. Esaki once met Mr. Yokota Torahiko, a Daido Club member, and once visited Mr. Imada, the legal adviser to the company. Mr. Esaki is surprised that he should have been accused of the charge preferred against him.

The verdict of the preliminary examination in the case of Messrs. Matsura Gohel and Sawada Nei, Constitutional members of the Diet, will show Mr. Esaki's position in the scandal. The verdict says:—The accused Matsura Gohel and Sawada Nei, on the night of December 23rd, 1907, received ¥30,000 from Esaki Reiji, representative of Isomura (a managing director of the company) at the house of Imada Kamataro at Yanagawa-cho, Tokyo. The accused also obtained a memorial from Esaki Reiji, as a delegate of the shareholders, promising to pay them ¥30,000 in the event of the Sugar Monopoly being successfully carried in the Diet. In this way they accepted bribes. On the following day, December 24th, 1907, the two accused visited the headquarters of the Constitutional party in Shiba Park and saw the accused Yokoi and Matsumura; presenting them each with ¥2,500 out of the money received from Esaki. Up to the 31st of the same month Matsura and Sawada shared ¥6,850 distributed among Agino, Hasegawa, Sato, Osawa, Okuno, and Shimizu. The accused Sawada received ¥3,000 from Matsura for his share, Matsura retaining the balance of ¥3,850 for himself.

OPIMUM-SMOKERS ARRESTED.

About midnight on the 11th instant a Chinese residing at Kita-Nagasa-dori, 3-chome, Kobe, and another from Yokohama were arrested at the house of a Chinese living at Moto-machi, 2-chome, Kobe, in the act of smoking opium. They were handed over to the Saibansho.

PROSPEROUS BOMBAY.

If the whole of India is being impoverished by British rule, as a leading citizen of Bombay has for years preached, says the *Indian Spectator*, the city of Bombay itself does not seem to have been overtaken by this alleged general misfortune. The income of the corporation for the last official year was Rs. 2,67,000, being more than four-and-a-half lakhs in excess of the original estimate. Taking the population at about 978,000, the incidence per head of population works out at nearly Rs. 2-8-0. There is no general complaint of excessive taxation, and, as building operations are progressing everywhere throughout the city, the commissioner looks forward to a still further increase in the revenues of the Municipality in future years.

FOREIGN TRADE-MARKS IN JAPAN.

REMARKABLE RESULT OF AN INVESTIGATION.

As the recent case in the Kobe Saibansho shows, the piracy of foreign trade-marks in Japan still proceeds, and it is satisfactory to find that the judiciary is beginning to take a serious view of the offence. The firm of Thomas Hubbuck & Co., of London, well-known manufacturers of paints and oils, have had some trouble in the past through their trade-marks being pirated in Japan, and as the representative of this firm was in Kobe recently, a member of the *Japan Chronicle* staff had an interview with him, it being understood that he was in Japan investigating some recent trade-mark piracy. We learn from Messrs. Hubbuck's representative that during his investigations, extending over several weeks, some remarkable disclosures have been brought to light in connection with the piracy in Japan of the London firm's trade-marks. We have been shown the correspondence in the matter, which, however, pending consultation with the directors of the company, Messrs. Hubbuck's representative does not wish published for the present. The particular case of piracy to which we refer is a very serious one, and we regret to say that, so far as the evidence goes, the officials of a certain Government department are involved, if not implicated.

Last evening the representative of Messrs. Hubbuck and Son left for Tokyo to have a further interview on the matter with Sir Claude MacDonald, the British Ambassador, after which he will proceed to London to lay the whole facts before the company. We are given to understand that great pressure is being brought to bear upon Messrs. Hubbuck's representative not to publicly disclose the result of his investigations in Japan, but in the interests of honest dealers it is to be hoped that a full exposure of the fraud will be made, for we are sure that the Japanese Government is no party to the incident of which complaint is made. The greater publicity that is given to the discovery of such frauds, the more likely it is that the practices will be suppressed.

THE ACCOUCHMENT OF THE QUEEN OF HOLLAND.

The Hague, April 30.

Queen Wilhelmina gave birth to a daughter at ten minutes to 7 this morning. Up to the hour of telegraphing her Majesty and the infant Princess are progressing favourably. The Prince Consort communicated the news of the birth direct to King Edward.

Shortly after 9 o'clock the guns on the Malieveld began to boom forth the glad tidings of the birth of the Princess. A large crowd assembled and greeted the salute of 51 guns with loud and frequent cheers. Immediately after this first official announcement had been made, a herald, accompanied by two trumpeters dressed in costumes of the period of William the Silent, rode through all the quarters of the town, halting at intervals to read the proclamation announcing the birth, and calling for cheers for the Queen and Princess.

At 12 o'clock a review of the troops of the Residency (grenadiers, chasseurs, artillery, and hussars), which was held on the Malieveld, was witnessed by many thousands of spectators. The only National Anthem "Wilhelmus van Nassouwe" was played, repeated cheers being given for the Queen and Princess, and an enthusiastic crowd accompanied the troops, when the review was finished, on their march back to barracks.

It was impossible to witness without feelings of emotion the extraordinary enthusiasm manifested in the streets throughout the entire day. I could recount a hundred small but moving incidents as I mingled with the crowds which streamed through the principal thoroughfares. From almost every house flags were hanging, and every one was wearing orange favours. Even saw a horse painted with the national colours. At an early hour the Minister for Foreign Affairs communicated the news to the foreign Legations. It was a touching sight to see all sorts and conditions, from the representatives of the Great Powers to hotel porters waiting to sign their names in the visitors' books at the Palace of the Queen and the Queen Mother.

From conversations with influential persons I gather that the birth of a Princess is almost as welcome as that of a Prince would have been. In many ways it is considered a distinct advantage that a Queen should be on the Throne of Holland.

EVENING IN THE STREETS.

10.30 p.m.

As I telegraph the streets present a scene of great animation. The Government offices and most of the big hotels and restaurants are brilliantly illuminated, but the chief illuminations will not take place for ten days. Dense crowds throng the streets, and the intense enthusiasm in all parts of the town is likely to continue far into the night.

A correspondent writes to me from Amsterdam as follows:

The greatest enthusiasm here. Scenes of the wildest excitement took place on the Stock Exchange. A bull was produced, and brokers and merchants from neighbouring haills joined in singing national airs. Fireworks were let off and business was quite at a standstill. Towards the end of the afternoon the whole population seemed to be parading the streets. The crowd is now so dense in front of the Palace that movement is impossible.

On Monday morning at 11 o'clock a thanksgiving service for the safe delivery of the Queen will be held in the English Church by the Chaplain of the Legation. Members of the Legation will attend the service in uniform.

MESSAGE FROM PRESIDENT TAIT.

Washington, 30th April.

President Tait has cabled his congratulations to Prince Henry of the Netherlands on the birth of an heir, expressing the hope that the Princess will have a long and illustrious life and the best wishes for her Majesty's health.
